

DEVELOPING
ORGANIZATIONAL LEADERSHIP
INSTITUTE

EDUCATION

NAIOP Southern Nevada
Developing Organizational
Leadership Institute

NAIOP Southern Nevada designed the Developing Organizational Leadership Institute (DOLI) to address two concerns.

- Committee work was being executed by the same few people.
- The desire to facilitate a depth of passion and training in leaders to serve the organization as committee chairs and board members.

OBJECTIVES:

- to provide NAIOP members with advanced and accelerated information about NAIOP Southern Nevada and NAIOP Corporate.
- to provide a leadership training program to our members including styles of leadership, avoiding burnout, time management and productivity tools, exposure to personality and communication styles via the DISC profile, and training specifically for effective committee and board involvement.
- to create a cohort of diverse professionals within the commercial real estate development industry.

By accomplishing these objectives, members can work and volunteer more effectively, create a greater impact in their companies and community, and best leverage relationships for personal, professional and industry advancement.

DOLI Program Sessions:

Session 1 - NAIOP Deep Dive

Session 2 - Axioms of Leadership

Session 3 - Effective Tools for Productivity and Time Management

Session 4 - DISC – Understanding Personality and Communication Styles

Session 5 - Effectively Working in NAIOP Committees and Leadership
